EXPERIENCE

Cryptocurrency Market Specialist

[Invex](#) | Iran | May 2025 – Aug 2026

- Worked closely with the quantitative team to develop a new investment feature.
- Supported the marketing team by reviewing and verifying the technical accuracy of all cryptocurrency-related content.
- Collaborated with the product and infrastructure teams to identify market trends and suggest new coins for listing.
- Provided daily cryptocurrency market analysis for exchange users to help them follow market trends.

Head of Market Research (Remote)

[Thales](#) | Germany | Jun 2025 – Dec 2025

- Led a 6-person team of specialists, including macroeconomists, technical analysts, and options traders, to provide investment advice.
- Worked closely with the Risk Management team to align market analysis with portfolio safety strategies.
- Analyzed the market from multiple perspectives to help manage client portfolios and meet their specific investment needs.

Head of Analysis and Risk Management

[Capitalino](#) | Iran | Apr 2024 – Feb 2025

- Led the analysis and risk management team, which included technical, fundamental, and on-chain analysts, as well as news researchers and risk experts.
- Ensured close collaboration between the analysis and risk units to safely manage client investment portfolios.
- Supervised the creation of quantitative models used for secure institutional cryptocurrency investments and risk hedging.

SKILLS

Core Skills: FRM (Candidate), Quantitative Analysis, Portfolio Risk Strategy, On-chain Data Analysis, Team Leadership, Content Strategy.

Tools: Excel, Power BI, Python, Glassnode, CryptoQuant, Dune Analytics.

SUMMARY

Risk Management Specialist with a strong quantitative background and proven experience protecting institutional portfolios in the cryptocurrency market. I have successfully led diverse risk and research teams across Iran, Dubai, and Germany. As an FRM candidate, my focus is on identifying market vulnerabilities, building robust risk models, and bridging the gap between market analysis and risk mitigation to ensure secure, data-driven investment decisions.

EDUCATION

Bachelor of Science in Electrical Engineering

Ferdowsi University of Mashhad |
Mashhad, Iran 2014 – 2019

Senior Fundamental Analyst

[CITEX](#) | Iran | Dec 2023 – Apr 2024

- Directed a 3-person unit of researchers and analysts to support the firm's portfolio management strategy.
- Used news sentiment and on-chain metrics to explain the logic behind major market moves to stakeholders.

LANGUAGES

- **Persian:** Native
- **English:** Intermediate

Cryptocurrency Market Analyst & Content Specialist (Remote)

[Bitex](#) | Iran | Oct 2022 – Dec 2023

- Helped write the whitepaper for Zarban, the first decentralized lending platform in Iran.
- Produced educational videos and articles to explain blockchain data to a non-technical audience.
- Provided market insights for Pooleno exchange and the Zarban DeFi project.

Cryptocurrency Market Analyst

[Part Software Group](#) (Signal App) | Iran | May 2021 – May 2022

- Tracked on-chain data for Signal, the largest financial app in Iran with over 7 million users, covering markets like Forex, Stocks, and Cryptocurrency.
- Created a library of guides and tutorials to help beginners understand cryptocurrency markets.
